featureloom

# featureloom price list

Price list version 1, in effect from November 1, 2026.

Pay per person. Connect agents at no extra cost. Each person connects their own Claude Code, Codex, Cursor or another MCP client, up to 10 consoles at once. Monthly prices; a year costs the same as 10 months. A free 30-day trial, no payment card needed.

## Plans

| Plan | Unit | EUR | | USD | |
|---|---|---|---|---|---|
| | | month | year | month | year |
| Solo | per organization | €7 | €70 | $8 | $80 |
| Team | per seat | €11 | €110 | $12 | $120 |
| Enterprise | yearly contract | on request | | | |

Prices exclude tax. Tax depends on your address; you see the total at checkout.

### Enterprise

From 10 people. A contract with you. An invoice payable in 30 days, by bank transfer in PLN, EUR or USD. Write to us: contact@featureloom.com

### Trial

**30-day trial**: as on Team, with a lower content and invitation limit (numbers in the Terms), no payment card needed, once per person every 24 months. Your first trial comes with a trial package of 500,000 tokens for generating plans in the app.

### Paid seats on Team

A paid seat is a person or an enabled automation beyond the first. People’s agents come at no extra cost, up to 10 consoles per person.

## Compare the plans

| | Solo | Team | Enterprise |
|---|---|---|---|
| **People and agents** | | | |
| People | 1 | from 2 | from 10 |
| A person's agents | no extra cost, up to 10 consoles at once | no extra cost, up to 10 consoles at once | no extra cost, up to 10 consoles at once |
| Automations | one | the first included, each additional enabled automation is a paid seat | per contract |
| Inviting people | no | yes | yes |
| **Contract** | | | |
| Yearly contract and an invoice payable in 30 days | no | no | yes |

## The AI model is billed separately

Claude Code and Codex run on your own Claude or OpenAI plan; featureloom adds nothing for their work. You pay separately only when featureloom itself writes a plan or an acceptance list: each call takes the model's price for input and output tokens from the organization's balance. Output tokens include the model's thinking.

### Per million tokens, excluding tax

| Model | PLN | | EUR | | USD | |
|---|---|---|---|---|---|---|
| | Input | Output | Input | Output | Input | Output |
| Claude Opus 5.5 | PLN 20.01 | PLN 100.05 | €4.58 | €22.86 | $5.20 | $26.00 |
| Claude Sonnet 5.5 | PLN 10.01 | PLN 50.03 | €2.29 | €11.43 | $2.60 | $13.00 |

## Price and exchange rate

The price covers the model's cost at the provider and our margin. We count the cost in USD and convert it to your balance's currency at the NBP rate, table A no. 188/A/NBP/2026 of September 28, 2026. We change model prices when the provider’s cost of the model or the exchange rate changes; the new price applies to future calls. A consumer who does not accept it may ask for a refund of the payment for the paid, unused part of the balance, tax included.

The prices in the table exclude tax and are taken from a net balance; tax, which depends on your address, is added when you top up, where applicable. Amounts are rounded up to the cent: we bill more precisely than to the cent, never more than the table says. A single top-up is from PLN 20 to PLN 500, from €5 to €120 or from $5 to $130, in the currency of your balance. Amounts exclude tax.

## Trial package

500,000 tokens of Claude Sonnet 5.5, once per person, in their first trial. While it lasts, generation uses this model; an unused trial package carries over to a paid plan.
